

 JP DECOR
SHAPE YOUR FUTURE DESIGN

JP DECOR PANELS

– Usage Possibilities

WALL CLADDING

For classic flat walls or more complex curved surfaces.

COLUMN CLADDING

Striking finishes for round or square columns.

FURNITURE MANUFACTURING

Panels used on cabinet doors, dressers, and kitchen units.

CEILING CLADDING

Modern interior design solutions extended to the ceiling.

ABOUT US

– JP Decor – Shaping the Design of the Future Together

JP Decor's mission is to provide architects and interior designers with a flexible, hybrid cladding system that enables them to create large-scale, curved, and creative surfaces for their clients – with precision, aesthetics, and affordability. Our products are developed to ensure true design freedom, while offering reliable, accurate, and easy-to-install solutions for construction professionals.

JP Decor continuously refines the quality, material composition, and surface appearance of its products – whether for wall cladding, furniture surfaces, columns, or ceilings. Our goal is always to achieve a result that is distinctive and one of a kind. We strive to make the balance of creativity and technical precision a tangible value in every project.

From our headquarters in Budapest, in the heart of Central Europe, we work to bring JP Decor products to professionals and distributors across the continent – empowering outstanding projects and exemplary craftsmanship to come to life with JP Decor surfaces. Join us and get ready for 2026 – the Year of Curved Surfaces!
